

Brita Sailer 2010 As recorded

RADIO ADS

EDUCATION:

This is your state representative, Brita Sailer. Each and every child deserves a good education and all Minnesota schools need fair funding -- without driving up our local property taxes. Our students need an education that will allow them to compete in a global economy. Our districts' children should get an education that gives them the tools for success in life, not just success in testing. Please help me in giving our children a first class education. I NEED your vote on November 2. Paid for by Sailer for House Campaign, Maurice Spangler, Treasurer.

ENERGY:

Secure, sustainable energy is one of the most important challenges facing our state and Nation. I'm Brita Sailer, your state representative, and I'm seriously committed to addressing this challenge. A broad combination of energy conservation, renewables and existing energy sources will be required to ensure a strong and secure energy future. With your help, I will work to ensure that northern Minnesota's natural, renewable resources are tapped to provide the jobs and economic growth this region needs. I ask for your vote on November 2. Paid for by Sailer for House Campaign, Maurice Spangler, Treasurer.

HEALTH CARE:

Hi, this is State Representative Brita Sailer. I know that health care is important to ALL of us—to small businesses, farmers, children, and seniors. This past session, I voted for measures to bring matching federal dollars to Minnesota to alleviate our health care crunch. As your representative, I will continue to work for affordable health care, emphasizing the preventive care that saves money and lives. I need your vote on November 2. Paid for by Sailer for House Campaign, Maurice Spangler, Treasurer.

ECONOMY:

Hello, this is your state representative Brita Sailer. In the past two years we have experienced massive economic shifts, creating deficits with consequences for all of us. This is not a situation that we can solve simply through spending cuts. When the state cuts local government aid, when we fail to fund schools or nursing homes, northern Minnesota loses important

jobs—including cooks, custodians, and caregivers. Thoughtful and judicious investments in education, technology and energy innovations can help us to control spiraling fuel and healthcare costs and restore economic growth. I ask for your vote on November 2. Paid for by Sailer for House Campaign, Maurice Spangler, Treasurer.

IN GENERAL:

This is state representative Brita Sailer. Over the course of the summer—at local parades and fairs and celebrations and at their doors—the people of District 2 B have shared their serious concerns with me. Many of you are concerned about keeping your job, about finding affordable health care, reducing the deficit, and making post-secondary education more affordable for your children. With your guidance and help, I want to address these issues in the state legislature, and I ask for your vote on November 2. Paid for by Sailer for House Campaign, Maurice Spangler, Treasurer.
